## DEPARTMENT OF LIFE SCIENCES 2019-20

### PROGRAMME FOR SLOW LEARNERS

The poor and slow learners are identified and assisted by teachers to improve their academic ability by taking extra classes and by providing books and additional study materials. At the end of semester programme, the progress report consisting attendance status, IA test performance are submitted to the office for further action. Slow learners and advanced learners are identified. Slow learners are provided with additional care and guidance to ensure improvement. The performance in lab exercises is continuously monitored and for slow learners additional lab practice is given. The faculty members conduct surprise tests, seminars, group discussion, and verbal test to monitor the academic progress of each student. Slow learners are counselled in order to encourage them for better performance.

### PROGRAMME FOR SLOW LEARNERS

The College has class teacher / mentor – counselor system. The faculty members identify students as slow and advanced learners based on the performance of students in the class and internal assessment tests. The slow learners have less grasping power and plunge into despair. For them faculty members conduct remedial classes in respective subjects to improve their skills and competence. Remedial and improvement tests are also conducted periodically to know their progress. Enrichment courses like Personality Development programmes, Communication Skill development programmes group discussion, seminar are also conducted to inspire them for an innovative and creative mind set. A slow learner is further supported by providing him/ her with Internet facilities to view online video lectures to get familiarized with the subject.

### PROGRAMME FOR SLOW LEARNERS

Slow learners identified by the class teacher are provided with special counseling and intensive coaching. The students with attendance below 85% and those students who are slow learners are identified and guided by the class animators for the remedial classes. The teachers maintain the class wise attendance to monitor the students. They are given assignments to improve their skill in gathering information on the topic. To keep a track on the further performances, extra class tests are given. A log book is maintained for recording the details of remedial classes. Apart from remedial classes the class animator also gives a personal support and counseling to the students in need which is recorded in the class teacher's diary. Slow learners are counselled in order to encourage them for better performance. If required, parents are also called to meet their respective faculty member.

### PROGRAMME FOR SLOW LEARNERS

The College has class teacher / mentor – counselor system. The faculty members identify students as slow and advanced learners based on the performance of students in the class and internal assessment tests. A slow learner is further supported by providing him/ her with Internet facilities to view online video lectures to get familiarized with the subject. The poor and slow learners are identified and assisted by teachers to improve their academic ability by taking extra classes and by providing books and additional study materials. The management of the college also keeps track of the quality of education in the institution. The different committees are constituted by the institution keeping in view of administrative needs of the college. Slow learners are provided with additional care and guidance to ensure improvement. The performance in lab exercises is continuously monitored and for slow learners additional lab practice is given. The faculty members 'conducted surprise tests, seminars, group discussion, and verbal test to monitor the academic progress of each student. Additional study materials were provided to the students so that they find it easier to understand the subject. As there was one to one interaction between the peer groups it helped in gaining a better knowledge of the subject. The students' progress was monitored by regular class tests and revision tests. The subject was made easier for them to understand by conducting practical sessions which gave them hands on experience of the topics covered.
