Department of Economics

M.A in Economics is an intensive two year (4 semesters) full time on-campus programme designed to provide to the students a sound theoretical background in the principles of economics and equip them with analytical tools and techniques for understanding & solving social and economic issues with multi-dimensional economic research. Apart from being equipped in different branches of economics, this programme also establishes a platform for quantitative and qualitative applications, economic modeling and policy analysis. It will be worthwhile to the student in terms of effective understanding of the theoretical aspect & analytical aspects of the subject as well as enable them to understand the tools of empirical analysis. The present curriculum contains teaching and evaluation methodology which ensures that the students are well trained and equipped with the latest knowledge and skills to cope with new emerging challenges. The overall envisage of the M.A Economics programme is dissemination of comprehensive knowledge focused at problem solving for national and international economic issues.

About the Workshop

The programme is arranged with the objective of imparting knowledge of the basic concepts of Econometrics along with its application in research focusing mainly on the use of secondary data. The programme includes practical hands-on sessions on the usage of software required for research in the area of Economics, Commerce and Management using econometric tools.

Research Scholars, Faculty members and students of Economics, Commerce and Management are eligible to participate. The programme would provide in-depth understanding of econometric modeling and forecasting issues. Topics included in the session are: Regression, Causality, Co-integration, VAR and VECM.

Keeping in mind the vast application of econometric research tools in Economics, Commerce and Management, the Department of Economics of Kristu Jayanti College is organizing this workshop.
