The focus of the group has been to help the school dropouts and illiterate youth, who are the most vulnerable groups of the society. The social situation and systemic reasons have triggered the youth to abandon studies. FVTRS identifies the root cause of these societal issues and offers the appropriate panacea by initiating suitable skill oriented training.

BACKGROUND OF THE CONFERENCE

According to United Nations (UN), investing in the economic empowerment of women propels gender equality, poverty eradication and inclusive economic growth. Women have always carved a niche in the society by contributing their mite in business, as entrepreneurs, as employees in an institution or as a homemaker. To enhance the qualitative contribution of women, the Government of India has framed a National Policy for Women Empowerment. The main objective of this policy is to create an environment through positive economic and social policies that will help women to realize their potential. With this background, the Department of Social Work in association with FVTRS has planned to organize a National Conference on Women Empowerment through Skill Development. The conference aims to bring together erudite veterans, research scholars from Social Work, Women Studies, members of Women Empowerment Cell, Professionals from NGO's and other allied fields, to find strategies to empower the women to be stronger socially, psychologically and financially. The conference also aims to throw light on developing and bringing forth innovative ideas and schemes to improve the skills and efficacy of women.

The conference directorate invites papers related to the broad theme "Women Empowerment through Skill Development" and the following sub-themes:

- ❖ Gender Equality and Women Empowerment
- ❖ Best Practices in Higher Education for Women
- ❖ Role of Judiciary in Empowering Women
- ❖ Digital Platforms and Skill Enhancement
