5. Networking student enterprises from campus to incubators, seeding funds through angel investors.

#### **About EIC**

The Entrepreneurship Development Cell was established on August 2, 2013 with the aim of encouraging students to acquire the knowledge and skills to become a successful entrepreneur. Keeping the reality of growing competition in mind, in the modern era the business is inseparable from innovation. Motivated by this idea, the Entrepreneurship Development Cell has been renamed the Entrepreneurship and Innovation Center and a group of interested people is working to recruit a student entrepreneurship attitude and instill a new spark in them. The Entrepreneurship and Innovation Center is a powerful business network that allows access to mentors, investors and tools to grow EIC members.

## **Activities Organized by Entrepreneurship and Innovation Centre (EIC)**

### **1. Orientation:**

The main aim of the programme to create awareness and need among the students to be an entrepreneur.

### **2. Business Plan Orientation and Workshop:**

Provide participants with an understanding of the importance of creating an effective business plan, gaining financial support, developing effective marketing strategies and developing student entrepreneurs to understand their interests and know how to do market analysis. By completing this workshop, participants will be able to keep track of the most important things as an entrepreneur on how to allocate their time, energy, and resources.

### **3. YESCAN:**

The Young Entrepreneurs (YES) series is an educational program aimed at instilling entrepreneurship in the minds of Kristu Jayanti College youth. YES CAN is a program aimed at raising awareness of business opportunities, investment strategies and opportunities available to them. The event will showcase the best of the emerging successful Indian entrepreneurs who will share their experiences, challenges and ways of becoming successful entrepreneurs.

### **4. Panel Discussion with Alumni Entrepreneurs:**

The Entrepreneurial Panel is designed to enable participants to use the information they have gained from previous sessions and even to assist them with future applications. Hearing from reputable Alumni entrepreneurs will help participants to relate the knowledge they gained from previous studies to their local environment. This helps to move participants to learn from experiences that will help them prioritize supporting entrepreneurs as a step towards economic development.

### **5. Business plan Presentation:**

This event is designed to match the real world business process. Our goal is to gain real world knowledge while developing and growing new investments based on your ideas and expertise or what others have done. The purpose of this event is to see you start a launched business.

### **6. E-Week:**

E-week is a program aimed at developing entrepreneurial skills among students. It means sharpening, developing and polishing one's skills to meet one's needs to start and manage one's business successfully. The main focus was on ways to help students become aware of business start-up opportunities and to help them become entrepreneurs.

### **7. Industrial visit:**

To bring immersive learning within KJC students, we include industry visits as part of the curriculum / credit curriculum. Industrial visits will bring a lot of clarity to students as they will be dealing with how conceptual knowledge is used and they will be able to identify and explore their potential as an entrepreneur.

### **8. E-Store:**

Entrepreneurship is a key driver of our economy. Wealth and a high majority of jobs are created by small businesses started by entrepreneurially minded individuals, many of whom go on to create big businesses. People exposed to entrepreneurship frequently express that they have more opportunity to exercise creative freedoms, higher self-esteem, and an overall greater sense of control over their own lives. As a result, many experienced business people political leaders, economists, and educators believe that fostering a robust entrepreneurial culture will maximize individual and collective economic and social success on a local, national, and global scale.

Keeping this in mind, the Entrepreneurship and Innovation Centre of Kristu Jayanti College (Autonomous) has taken the initiative to come with E-Stall. The Cell provides opportunity to the students every week to exhibit their entrepreneurial skills by coming up with a creative stall and sell products the whole day in the college campus.

- HUMBLE:** Can you check your ego? You may need to ask for help to hit certain milestones.
- ADAPTABLE:** Things will likely not go as planned. You have to be able to think on your feet.
- SELF-CONFIDENT:** You may waiver at times, but you have to believe in yourself and your business.

# Design Thinking

- **Who ??**
  - Tim Brown - coined the word Design Thinking.
  - Design-thinking methodology was popularized by design consulting firm IDEO.
  - It become famous after Tim Brown wrote an article in Harvard Business Review in 2008.
- **What ??**
  - It is a process for solving problems by prioritizing the consumer's needs above all else.
  - Design thinking is "human-centered".
    - it uses evidence of how consumers (humans) actually engage with a product or service.
  - Design thinking only works if it is iterative.
    - It favors moving quickly to get prototypes out to test, rather than endless research or rumination.

There were 2 stalls put up last Thursday by the students in the college premises as inauguration of E-Stall. All the stalls got a remarkable response from their customers and earned a reasonable amount of profits.

which covered their costs. The profit by stallholders was ₹2500 & ₹1500 respectively. Everything was conducted smoothly with the help of the faculty coordinators and the student coordinators and the students were happy with the returns they earned. This encouraged the students who had put up the stalls to showcase their entrepreneurial skills.

**Feedback received from the Visitors:** The feedbacks received by students for their respective stall were brilliant. Students and faculty members loved the succulent plants and pots for their desk kept by one of the stallholders and asked them to put the same stall again. They earned ₹2500 as profit from their business.
