ENVIRONMENT CLUB
“BUILD YOUR MICRO TERRARIUM” COMPETITION
IN COMMEMORATION OF WORLD ENVIRONMENT DAY
1st June - 5th June 2021

Title: Build your micro terrarium

Date: 1st June – 5th June 2021

Number of participants-42

Objective of the programme: To spread awareness on conserving nature and to develop an interest in gardening

Brief write up on the programme:

World Environment Day is celebrated on 5th June every year to stimulate worldwide awareness of the environment and enhance political attention and action to improve and conserve our environment. This year the theme for World Environment Day is “Reimagine. Recreate. Restore”. The Environment Club of Kristu Jayanti College, in commemoration of World Environment Day organized an Intra-collegiate Event “Build your Micro Terrarium” for the students and faculties of the college Day from 1st June to 5th June 2021.

Micro Terrariums are stackable little Ecosystems that add Nature to your desk. The transparent terrarium is designed as a tiny greenhouse that retains moisture. The concept of a micro terrarium is to initiate a small ecosystem at our home and workplace. The competition was open to all Jayantians including faculty and students who actively participated and uploaded their beautifully created micro terraria. There were 43 participants from all departments who came up with innovative ideas and techniques for building micro terrariums. The micro terrarium was soothing to eyes and relaxing for the mind.

Event Co-coordinators: Dr. Sangeetha Menon and Dr. Indira M.

PLEDGE TAKING

IN COMMEMORATION OF INTERNATIONAL PLASTIC BAG FREE DAY

Title: Pledge taking ceremony for a plastic free campus and environment

Date: July 3, 2021

Classes Attended & Number of beneficiaries: 466

Name and details of the Resource Person: Fr. Emmanuel PJ, Director, Kristu Jayanti College of Law

Objective of the programme: To spread awareness on the hazards of plastic and to take a pledge to take steps to make our campus and environment free of plastic

Brief write up on the programme:

International Plastic Bag Free Day is dedicated to raising awareness about the very real and pressing issues of plastic pollution. We need to think it through when using plastic bags concerning what it does to our environment and how it will wreak havoc in the coming years.

Kristu Jayanti College is aiming at a plastic free campus which is being implemented in a phased manner. We have already started the process. It is our individual responsibility to take alternate measures to avoid plastic and save the earth from the hazards of plastic pollution. International Plastic Free Day was commemorated in Kristu Jayanti College by the Environment Club through the following activities

- Students and faculty posted their resolution on International Plastic Free Day on Instagram/ Facebook/ Twitter/ status in WhatsApp.
- Students and faculty made a 20 seconds video on your ideas in making the environment plastic bag free and shared it in known Whatsapp groups.

- Students and staff to support the college in its no plastic initiative- Carry your food, water in ecofriendly containers and bags to college. Never carry plastic bags to campus
- Students and staff to be part of the initiative by participating in a pledge taking ceremony to make our campus and environment plastic free.

Fr. Emmanuel P J, Director Kristu Jayanti College of Law and faculty Dept.of Psychology gave an inspiring message on how every small initiative by each one of us can make a huge difference in making a plastic free world through a short story. The International Plastic Bag Free Day was commemorated in the online mode where students and faculty participated to take the pledge which was led by Fr. Emmanuel P J. As the pledge was taken, all took a resolution to try to cut plastic from our everyday life and make our environment plastic free. Mrs. Priya Josson, Coordinator, Environment Club quoted that a plastic pollution-free world is not a choice but a commitment to life - a commitment to the next generation

We don't have to engage in grand, heroic actions to participate in change. Small acts, when multiplied by millions of people, can transform the world.

Commemoration of
International Plastic Bag Free Day

SATURDAY JULY 3rd, 2021
INTERNATIONAL PLASTIC BAG FREE DAY

Make a resolution
 Post your resolution on International Plastic Bag Free Day on Instagram / Facebook / Twitter or post a status on Whatsapp

Express your concern in a video
 Make a 20 seconds video on 'Ideas in making the environment plastic bag free' and forward in known whatsapp groups

Support the college in its no plastic initiative
 Carry your food/ water in ecofriendly baggages to the college. Never carry plastic bags to campus

Plastic pollution is a global, man-made catastrophe that eats into the fine balance of many ecosystems. **International Plastic Bag Free Day**, commemorated on July 3, is a global initiative that aims to eliminate the use of plastic bags which are an environmental burden as they take around 500 years to disintegrate thus polluting the environment.

Be a part of the initiative as we take the pledge to make our campus and environment plastic free on Saturday, July 3, 2021 at 10. 00 AM

International Plastic Bag Free Day

July 3rd 2021

Pledge

I resolve today, to do my bit, small or large to save Earth from the hazards of plastic bags. As a good citizen of my country and a responsible resident of the planet Earth, I pledge to Refuse, Reduce, Recycle, Reuse, Repair, Re-gift, Recover and "Rethink plastic", to the best of my efforts. I will stop using plastic meant for single use by doing the following:

- I shall say "NO" to single use plastic items
- I shall always carry a cloth bag, reusable cutlery and cup
- I shall use reusable bags for shopping
- I shall stop buying bottled water for drinking and use refillable eco-friendly water bottle
- I shall use reusable coffee/tea cups to go
- I shall pack my food for the day or leftovers in a stainless steel box / in glass containers
- I shall NOT purchase fruits and vegetables wrapped in plastic films
- I shall sensitize peers, friends and family about minimizing single use plastic
- I shall sort my waste for recycling and disposal
- I shall avoid sachets as much as possible

COMMEMORATION OF WORLD BIOFUEL DAY 2021

Title: Knowledge sharing on biofuels- Extension activity

Date: August 10, 2021

Classes Attended & Number of beneficiaries: 110 students of Vishwa Vidyapeeth School

Name and details of the Resource Person: Dr. Priya Josson and Dr. Hanumantappa Nayaka

Objective of the programme: To spread awareness on biofuels and biogas as an alternate fuel

Brief write up on the programme:

World Biofuel Day is observed on August 10 and the day is set aside to raise awareness about unconventional fuel sources that can serve as an alternative to the more traditional fossil fuels. The emphasis is on the usage of non-fossil fuels or biofuels that enable cleaner consumption patterns.

An extension activity to share knowledge on biogas plant, installation and working was organized with the teachers Mrs. Neeraja Sharma and Mr. Prashanth of Vishwa Vidyapeeth School. The teachers were greeted and briefed about the college by Dr. Calistus Jude, Dean, Faculty of Sciences. The teachers took a video of the demonstration on working of the Biogas plant and shared it with the high school students of Vishwa Vidyapeeth School, Honnenahalli, Bangalore on August 10, 2021 to spread awareness on non-fossil fuels. Mrs. Priya Josson,

Assistant Professor, Department of Life Sciences and Coordinator of Environment Club explained the working of Biogas plant and green practices in Kristu Jayanti College. Dr. Hanumantappa B Nayaka, Assistant Professor, Department of Life Sciences explained the setting up of the vermicompost plant and the process of recycling waste. A walk through the Medicinal garden and awareness of the need to preserve biodiversity was emphasized.

The students of Vishwa Vidyapeeth School prepared a beautiful handwritten creative art message as a token of their love to Principal Fr. Augustine George who spread the message of inculcating environment consciousness and sustainability amongst students.

CENTRE FOR ENVIRONMENT AND SUSTAINABILITY

ZERO EMISSION DRIVE – EMISSION CHECK FOR VEHICLES IN COMMEMORATION OF ZERO EMISSION DAY

Date: 24-09-2021

Number of beneficiaries: 205

Name and details of the Faculty in charge: Dr. Sangeetha Menon,

Assistant Professor,

Department of Life Sciences,

Kristu Jayanti College (Autonomous)

Bengaluru

Objective: To ensure all vehicles by the students and staff of Kristu Jayanti College possess Pollution Under Control (PUC) / Emission certificate thus contributing in our own little ways in reducing emission, thus saving our Planet.

Brief Write up on the Programme:

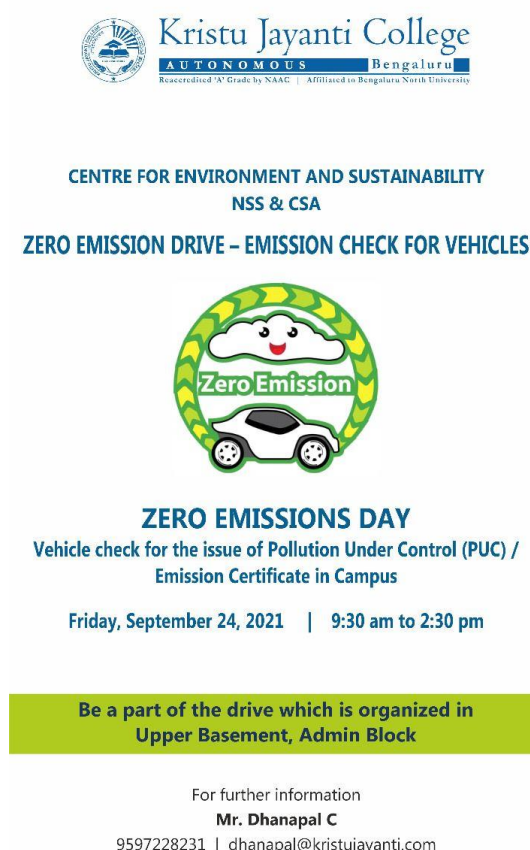

On the occasion of Zero Emissions Day, Centre for Environment and Sustainability and Centre for Social Activities of Kristu Jayanti College, Autonomous initiated a drive to monitor the alarming carbon emission rate in the atmosphere on 21 September 2021. As Carbon emission plays a defining role in climate change, it is the responsibility of the younger generation to protect our environment from harmful emissions. As a modest gesture, all vehicles of the students and staff of Kristu Jayanti College were checked to assess the carbon emission level, thus contributing to the green campus to curb the emission rate. The drive was inaugurated by Rev. Fr. Emmanuel P J, Director, Kristu Jayanti College of Law. The emission test took place in the College premises with the issue of Pollution Under Control (PUC) by an authorised agency on 24th September and Pollution Certificates were issued. A total of 205

vehicles were checked for emission in a single day and Pollution Under Control (PUC) certificates were issued. The drive conveyed awareness about the consequences of carbon emissions and called for collective action to renew the polluted planet. Students actively participated in understanding the significance and seriousness of conserving and building a sustainable green world. The event further encouraged faculties and students to cultivate atmosphere-friendly choices to preserve our planet for a greener future.

REPORT ON INTERNATIONAL E-WASTE DAY

Title: E-Rase your E-waste

Date: October 07, 2021 to October 13, 2021

Objective:

- To provide proper handling and management of toxic e-waste chemical substances.
- To create awareness about e-waste management
- To protect the environment and living organisms from e-waste issues.

Brief report:

October 14 is considered International E-waste Day. E-waste denotes any electrical or electronic equipment that has been discarded. This comprises working and damaged items that are thrown in the garbage. E-waste is mainly dangerous due to toxic chemicals that naturally leach out from the inside part of the metals when buried. Such wastes include Home Appliances, Communications and Information Technology Devices, Home Entertainment Devices, Electronic Utilities, Office and Medical Equipments. Every year millions of tons of electronic waste are discarded, and we need to improve the way it is disposed of and the necessary steps to prevent it from becoming a major environmental issue. The day is observed to raise awareness on e-waste recycling.

The Centre for Environment and Sustainability and Department of Computer Science (UG), Kristu Jayanti College (Autonomous) attempted to raise awareness on e-waste management by collecting e-waste for recycling. Students, Faculties, and Administrative staff have deposited the e-waste in the bins which are placed in various blocks. We collected various e-waste equipment such as a mouse, keyboard, wire, Circuit boards, DVDs, Compact disks, Audio Equipment, amplifiers, and so on. The e-waste is recycled in collaboration with e-vendor, Sonal Metacorp.

CENTRE FOR ENVIRONMENT AND SUSTAINABILITY

NITTTR-AICTE-NITTT- Advanced Module - Clean Green and Sustainability- Video Shooting at Kristu Jayanti College Campus

Tuesday, 12/10/2021

AICTE and NITTTR have jointly embarked on a novel initiative of preparing training modules and building capacities of Senior Teachers of Engineering Colleges and Universities, who are in the decision making managerial level of their institutions, on the Environment Improvement and Sustainability of campuses. These modules are titled "Clean, Green and Sustainable Technology". It is part of the Ministry of Education's SWAYAM online platform for learning for the Faculty of Higher Education. Kristu Jayanti College has been referred to NITTTR by Ms.Bineesha, Executive Director of IIWM, and Mr.Pravinjith, MD, Ecoparadigm who are also the Expert Advising the Ministry of Education in Green Campus Development.

Understanding that Kristu Jayanti College has been awarded the first prize in the National Clean and Smart Award and has best practices that can be emulated for other campuses across the country, NITTTR requested to permit them to make a video of these eco infrastructures of Kristu Jayanti College to be used for academic training in Govt of India's SWAYAM platform. A 6 member team along with Dr. E S M Suresh, Professor & Head, Dept. of Civil and Environmental Engineering undertook the video shooting on 12th October 2021.

Below are the areas covered from our campus. The coordinators for the programme were Dr. Aloysius Edward, Dean, School of Management and Dr. Priya Josson, Coordinator, Centre for Environment and Sustainability.

1. Student involvement in community activities

- NCC Parade
- Student involvement in NCC
- Student involvement in environmental activities, no plastic - CES students

- Student involvement in community and extension activities—NSS, CSA Volunteers
- Awareness Campaign, Blood Donation, Swachh Bharat Mission, NSS / NCC/CSA Camps
- Bhavishya Jyothi, Vikasa Kendra, Azadi ka Amrut, Jagruth, Yuva Milan

2. Eco infrastructure

3. Biodiversity and Green Cover

- Medicinal Garden
- Indigenous plants in campus
- Variety of plants and trees
- Student involvement in plant labelling
- Student projects on plants/ phytochemistry
- Water management, Manure from inhouse composting
- Rain water harvest tanks (Main Block, Admin Block)
- Recycled water- STP
- IoT based water meter

4. Solid Waste Management

- Composting
- Vermicomposting
- Biogas Plant

Solid waste management- Sewac- Piloting this technology with ecoparadigm

5. Education and Futuristic Plan

6. Health Management

- Tie-up with hospitals nearby- Regal hospital
- Nurse in campus
- Doctor on call

- Counselling centre
- Full time Counsellor

7. Hygiene

- Safe drinking water- water analysis was done weekly
- RO Units in every block
- Water dispenser on every floor
- Hand sanitisers in every corridor

8. Safety and First Aid

- Surveillance cameras
- Hostel wardens
- Women faculty to accompany students for trips

9. Fire Safety/ hazards

- Fire extinguishers in all labs and corridors
- Fire sprinkler system
- Fire alarm system
- Smoke detector
- Fire hydrants

10. Accidents Control

- Safety nets installed in the top floor to guard against accidents
- High railings in the corridors
- Pedestrian friendly pathways
- Disabled friendly campus

11. Insurance

12. Community Enrichment

13. Extension Activities

14. Smart and Green technology

CENTRE FOR ENVIRONMENT AND SUSTAINABILITY

REPORT ON SUSTAINABILITY DAY

Date: 27-10-2021

Classes Attended & Number of beneficiaries: entire college

Name and details of the Faculty in charge: Dr. Shinomol George K

Assistant Professor,
Department of Life Sciences,
Kristu Jayanti College (Autonomous)
Bengaluru

Objective: It aims to spread the message to halt the degradation of ecosystems, and restore them to achieve global goals. Only with healthy ecosystems can we enhance people's livelihoods, counteract climate change, and stop the collapse of biodiversity. Spread the message of sustainability that even small actions from our side will add to the mission of saving out Planet Earth.

Brief Write up on the Programme:

Sustainability day is celebrated worldwide to teach people about the importance of caring for the environment and the steps on how to do so. "Sustainable" translates to "to be maintained for a very long time", which is exactly our goal, to be able to take care of the planet forever. On the occasion of Sustainability day, we made e-banners and posters and displayed them in the college signage, what'sapp groups and other Social media platforms. The chart for 30-day sustainability challenges was also posted on the notice boards and spread through what's app groups, Instagram, Facebook, linked In, Twitter and quota. The student volunteers also shared the same documents in their respective groups to spread awareness.

Report on

ECOLOGICAL ROLE OF BUTTERFLIES

Date: On 20th November 2021 at 12:00 P.M

No. of Beneficiaries: 383 Degree Students

Resource Person: Mr. Haneesh K M, founding member Bangalore Butterfly Club and Associate Professor at Christ University.

A webinar was organised by the Centre of Environment and Sustainability of Kristu Jayanti College in association with the Bangalore Butterfly Club on 20th November 2021 at 12:00 pm. The topic of the webinar was “Ecological role of Butterflies”

The session was started with a silent prayer. Ms. Pruthvitha Pratap, student coordinator welcomed the resource person, Mr. Haneesh K M and all the delegates in the online platform.

The resource person, Mr. Haneesh started his talk by sharing his presentation slides depicting the beauty and morphology of butterflies. He explained about different types of butterflies, their taxonomy, and their characteristics. Each class of butterfly was explained in detail by him, from the morphology, the early stages and the process of “metamorphosis”. Detailed eye-catching images and visual representations were provided which made the session interesting.

The pupa stages and the adult stages of butterfly development were shown in different classes of the butterflies. He then continued talking about how butterflies might get infected by bacteria or fungi and how infections can be prevented.

Then the ecological and commercial importance of butterflies and how they play an important role in the food chain and food web. Also explained on the way butterflies can be protected by increasing numbers of host and nectar plants.

He educated the participants about how one can develop butterfly gardens in the campus. He stressed the importance of butterfly garden and the steps involved in developing the butterfly garden which includes:

1. Requirement of proper land
2. Preparation of land to grow a butterfly garden
3. Selection of plants- host and nectar plants and not using invasive plants
4. Introduction of plants
5. Maintenance in a sustainable way (using natural methods to take care)

Visuals of small to big butterfly gardens and closed area parks which are found in Bangalore Bannerghatta Biological Park were shown as an example to understand how butterfly gardens are developed.

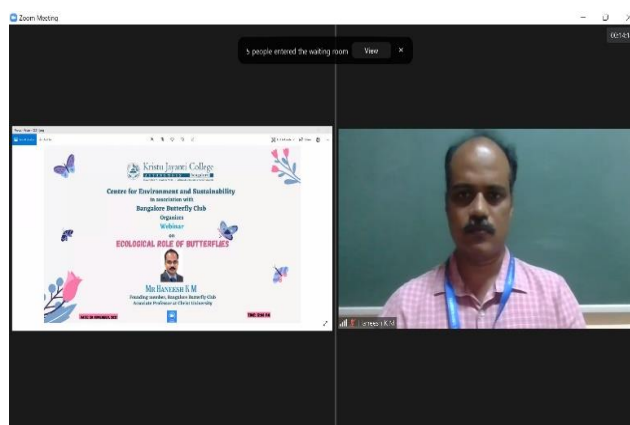

He concluded by giving examples of different host and nectar plants and mentioning the importance of butterflies to the ecosystem.

A vote of thanks was given by Ms. Devi Vaishnavi, the student coordinator. This was followed by a photo session and the college anthem. Dr. Priya Josson, head of Centre for Environment and Sustainability and the coordinator for the event, Dr. Sheeja Krishnakumar thanked the resource person for his elaborate explanation on the ecological role of butterflies.

In the webinar, more than 300 participants were present which included students and faculty from all the departments.

WORLD SOIL DAY -4TH DEC 2021

Report on

Intra-collegiate lecture Competition

World Soil Day observed on 5th December aims to raise awareness on the importance of maintaining healthy ecosystems and human well-being by addressing the growing challenges in soil management, fighting soil salinization, increasing soil awareness and encouraging the society to contribute to improving soil health.

The Center for Environment and Sustainability commemorated 'World Soil Day' based on the theme "Halt Soil Salinization, Boost Soil Productivity" by organizing a lecture contest for all UG and PG students. The students were given three topics to choose from namely:

1. Role of soil micro flora and fauna in soil health
2. Salinity and soil stress
3. Modern Agricultural practices and soil sickness

25 students across various UG and PG programs registered for the competition. It was very heartening to see appreciable participation from students of non-science background.

The contest was conducted offline. The students made a good attempt in presenting their chosen topics. They spoke about the reasons for decline in the soil health and mentioned several ways by which one can replenish and boost soil productivity. Dr. Esther Shobha, Assistant Professor from the Department of Life Sciences evaluated the lecture contest.

CENTRE FOR ENVIRONMENT AND SUSTAINABILITY

REPORT ON NATIONAL POLLUTION CONTROL DAY DECEMBER 2, 2021

National Pollution Control Day is observed annually on December 2nd, to remind the people about the huge loss of lives during the 1984 Bhopal Gas Tragedy which shook the whole world. The day is commemorated to spread awareness among people especially younger generation to cater to the rising hazards caused by air pollution. Contemporary generation have lost the awe and reverence for the air element and thereby negligence for the pure air is prevalent.

Objective: Awareness among students to abstain from things which cause air pollution was communicated through the activity of poster making. Students from all majors were called for designing posters which call for the control of Air Pollution.

Many students took part in the competition and the received artistic posters conveyed the crucial message to the society to withhold activities causing pollution to the surrounding environment. The judges found difficult in selecting the winners from the very many best posters conveying the message to address the air pollution. The posters were further displayed in all the notice boards of the campus for the students to witness the artistic and meaningful posters.

Outcome: The competition did create a sparkle and catalyst among the students to change certain life style and way of living to protect mother earth from the harmful effects of pollution.

**Results of Poster designing competition in commemoration of
National Pollution Control Day, December 2, 2021**

AICTE LILAVATI AWARD 2021-22

Theme: Women Empowerment

Sub Theme: Environment, Sanitation and Hygiene

Kristu Jayanti College has been conferred with the prestigious AICTE Lilavati Award 2021-22 to recognize the efforts being made by the institution towards Women Empowerment in the area of environment, sanitation and hygiene. Prof. Anil D. Sahasrabudhe, Chairman, AICTE and Dr.Vinita Sahay, Director, Indian Institute of Management, Bodh Gaya presented the award on 8th March 2022, on the occasion of International Women's Day. AICTE Lilavati Awards were given across eight sub-themes, Kristu Jayanti College received the award under

the sub-theme 'Environment, Sanitation & Hygiene' focusing on the issues like menstrual hygiene, home & environment hygiene.

The award function was at the AICTE Headquarters in New Delhi. The award was conferred to 27 teams on the basis of contributions and work done by the colleges. This year, more than 500 teams participated in the Lilavati awards, out of which 27 teams were shortlisted on the basis of various parameters. Prof. M P Poonia, Vice President of AICTE, Prof. Anil D. Sahasrabudhe, Chairman, AICTE, Dr. Vinita Sahay, Director, Indian Institute of Management, Bodh Gaya, Prof. Rajive Kumar Member secretary of AICTE, Mamta R Agarwal, advisor -I of AICTE were presented in the AICTE Lilavati Award Program. Dr. Gita P C, Dr. Sheeja Krishnakumar, Dr. Priya Josson, Dr. Rema MK and Dr. Indira M N received the Lilavati Award from Krsitu Jayanti Team. The program started with lighting of the lamp and Saraswati Vandana. Prof M P Poonia welcomed the dignitaries followed by the address of AICTE Chairman Anil Sahasrabudhe. He stated that by offering these awards, AICTE aims to create an atmosphere of equality and fairness for women in all institutions regulated by AICTE. The chief guest Dr Vinita Sahay spoke on the measures to be taken to attract more girl students in higher education. Prof Rajive Kumar proposed the vote of thanks.

CENTRE FOR ENVIRONMENT AND SUSTAINABILITY

REPORT ON INTERNATIONAL EARTH DAY

Earth Day -22nd April, 2022

Create your Instagram reel on the theme

“Save the Earth and Save the Future”

Title: Save the Earth and Save the Future

Date: April 26, 2022 to May 5, 2022

Number of Participants: 180

Objective:

- To create awareness about Earth day
- To protect the environment and living organisms thus saving earth.
- To make an innovative instagram reel about how to save earth and spread the message through social media

Brief report:

International Earth Day is celebrated on 22nd April every year to provoke worldwide awareness on Earth, boost political care, and preserve our environment. The Centre for Environment and Sustainability, Kristu Jayanti College (Autonomous) in commemoration of Earth day organized an Intra-collegiate Event “SAVE THE EARTH AND SAVE THE FUTURE” for the students and faculties of the college from 26th April to 5th May 2021. The competition

was open to all Jayantians including faculty members and students who actively participated and uploaded their instagram reel.

There were 180 participants from all departments who came up with innovative ideas and techniques to save earth. The main objective of this competition was to raise awareness among students on various aspects to save earth.

Instagram reel creation regarding earth day awareness

Insta reel competition was organized as part of International Earth day. The reels, with a maximum length of one minute, were expected to give awareness on saving the earth for future. Entries were invited through the Google form link which was circulated among all the classes with the details of event and guidelines. Participant created Instagram reels on the theme “Save the earth and save the future” and posted the reel in their instagram page and posted the link for the same in google form. The following prizes were announced

- **Best class award for awareness on saving the Earth** - Based on number of Instagram reels from each class on the theme “Save the earth and save the future”
- **Award for best 5 insta reels** on the theme “Save the earth and save the future”

There was active participation for the insta reel competition. 180 participants from all departments came up with innovative ideas for saving the earth. Students portrayed the necessity to save energy, water and manage waste in a sustainable way and emphasized on the requirement to conserve biodiversity, ecosystem and save the planet for future generations. The short reels helped in creating awareness to many through social media on the importance of saving the Mother Earth

REPORT ON PHOTOGRAPHY COMPETITION

COMMEMORATING BIODIVERSITY DAY 2022

Date: 22nd -28th May 2022

Number of Participants: 22

Objective: To foster an appreciation of biodiversity through the competition while nurturing the talents of the students at the same time

Brief Write-up of the Programme: The Centre for Environment & Sustainability in collaboration with the Photography Club organized a Photography Competition for students across all the Deaneries to commemorate the World Biodiversity Day i.e, the 22nd May 2022. The theme of the competition was “Building a Shared Future for All Life on Earth.”

22 students from all Deaneries participated by submitting their works through a Google link that was made available from 22-28th May, 2022. Asst. Prof. Aby Augustine, the Co-ordinator of Photography Club judged the Competition. Results of the Photography Competition were announced digitally on 10th June, 2022 and the winners were felicitated by the Principal, Rev. Dr. Augustine George in his office chamber in the presence of the faculty co-ordinators of the event, Dr. Ruth Magdalene T and Dr. Lalmalsawmi Ralte.

REPORT ON WORLD ENVIRONMENT DAY

World Environment Day -22nd April, 2022

Seed Ball Making Activity and Distribution

**“Only One Earth” by working with the soil and seeds to regenerate the
green world**

Title: Save the Earth and Save the Future

Date: June 4, 2022 to June 6, 2022

Number of Participants: 330

Objective:

- To create awareness about World Environment Day
- To work with the soil and seeds to regenerate the green world.
- To kindle eco activism among students
- Distribute seed balls to students and faculty and inculcate an interest in gardening

Brief report:

Centre for Environment & Sustainability (CES) in Collaboration with the Department of Life Science organised a Seed Ball Making activity on June, 4th for students of all Deaneries in commemoration of World Environment Day, June 5th, 2022. The event functioned in line with the universal theme of the year, “Only One Earth” by working with the soil and seeds to regenerate the green world. It was inaugurated by Fr. Lijo P Thomas, Financial Administrator & Fr. Deepu Joy, Student Welfare Officer. The address by Fr. Lijo P Thomas carried the vital message of spreading the awareness to converse the sick planet through a green revival, to quote ‘like the spread of fire transmit to your friends the importance of green earth.’

Students were provided with coco peat, fertile soil, seeds, and water to create the seed balls. The interested students participated with greater zeal. The volunteers stated the joy of working in bare hands with mud and water after years as androids and other gadgets hold dominion. The event kindled eco-activism among the students as they were eager to carry forth the message of seed ball making in their communities. On account of the 50th World Environment Day, the students prepared 500 seed balls, it was later stored to dry in the college garden.

The dried seed balls were packed after 3 days with brown covers, and labelled of the respective seed. Rev. Fr. Augustine George, Principal, on 6th June distributed the packed seed balls to student event coordinators and volunteers. He appreciated the efforts of the students and encouraged them to carry forth the message of green conservation. Further, the seed balls were given to interested faculties and students. The activity encouraged Kristu Jayantians to cultivate an eco-friendly way of living to preserve our planet for a greener future.

CENTRE FOR ENVIRONMENT AND SUSTAINABILITY (CES)

August and September, 2022

Poster Awareness on Environment Commemorative Days

Date and Commemorative Day: 10/08/2022 - World Biofuel Day

07/09/2020 - International Day of Clean Air for Blue Skies

16/09/2022 - International Day for the Preservation of Ozone
Layer

18/09/2022 - World Clean-up Day

21/09/2022- Zero Emission Day

Objectives:

1. Spread awareness on Environment related issues.
2. Take action to protect environment emphasizing on issues related to environment on respective commemorative days.

Brief Write up on the Programme:

Awareness was created among the students, faculty and general public by creating poster on environment commemorative days and sharing in social media. The posters of commemorative days which fell in September are attached below.

Sl. No.	Commemorative Day	Date
1	World Biofuel Day	August 10
2	International Day of Clean Air for Blue Skies	September 7
3	International Day for the Preservation of Ozone Layer	September 16
4	World Clean-up Day	September 18
5	Zero Emission Day	September 21

Outcome: It spread awareness on

- Usage of biofuels
- Actions to be taken to keep away air pollution and thus maintain clean air and blue skies
- Take necessary steps to avoid hydrofluorocarbons and preserve ozone layer
- Make our efforts to keep our surroundings clean
- To reduce emissions in our own little ways

The poster which spread awareness on Environmental Commemorative Days are attached below

INTERNATIONAL DAY FOR THE PRESERVATION OF OZONE LAYER September 16, 2022

OZONE: ALL THERE IS BETWEEN U AND UV

The ozone layer absorbs up to 98% of all harmful ultraviolet rays from the Sun. It regulates the temperature and keeps our planet from overheating or freezing.

What you and me can do?

- Opt for electrical appliances with 'energy-star labels
- Choose public transportation to reduce carbon footprint and so on.
- Phase down Hydrofluorocarbons
- Get electronic appliances serviced routinely.
- Discard any old appliances that could be emitting ozone-depleting gases.

CLEANING OF PUBLIC PARK

IN COMMEMORATION OF WORLD CLEAN-UP DAY

SEPTEMBER 18, 2022

Date : 18/09/2022

Time : 9:00am to 11:00am

Classes Attended : 12 students from III and V Sem BSc Life Sciences

Beneficiaries: Residents in Byrathi Cross

Volunteers: 12 CES student volunteers and

Faculty: Dr. Hanumanthappa Bherigi, Department of Life Sciences

Venue: Public Park, Byrathi, Kothanur, Bangalore

Objectives:

1. Spread awareness to keep our surroundings clean
2. Clean the public spaces

Brief Write up on the Programme:

Department of Life Sciences and Centre for Environment and Sustainability organized a Clean-up of public park at Byrathi Cross, Bengaluru in commemoration of World Clean-up Day on September 18, 2022. 15 student volunteers under the guidance of Dr. Hanumanthappa cleaned the park and cleared the litter and disposed it in the specific waste bins. The park was made clean and the daily visitors to park were happy. The student volunteers spread the message of keeping our surroundings clean and tidy.

Outcome:

The student volunteers who volunteered understood the importance of keeping our surroundings clean. It also motivated others to do their bit to keep our earth clean

CENTRE FOR ENVIRONMENT AND SUSTAINABILITY

VISIT TO BIODIVERSITY PARK AND

PARTICIPATION IN INAUGURATION OF BIODIVERSITY PARK, NAAC OFFICE, JNANA BARATHI CAMPUS, BANGALORE

Date : 20/09/2022

Time : 10:00 am to 12:00 noon

Classes Attended : BSc BBB Students

Number of beneficiaries : 52

Name and details of the Resource Person : Shri. V. Sommantha, Minister of State

Faculty: Dr. Priya Josson, Dr. Indira MN, Department of Life Sciences

Venue: Biodiversity Park, NAAC Office, Jnana Barathi Campus, Bangalore

Objectives:

1. To understand diverse community of living organisms keeps the soil healthy and fertile
2. To see the various kinds of fruit trees and herbs that were planted in the park

Brief Write up on the Programme:

Biodiversity parks are unique landscapes which consist of the form of diverse communities and provide ecological, cultural & educational benefits to the urban society. This diverse community of living organisms keeps the soil healthy and fertile. Because of natural calamities and destructive acts by

humans, the biodiversity is depleting. It is therefore imperative to adopt sustainable methods to preserve and replenish the nature.

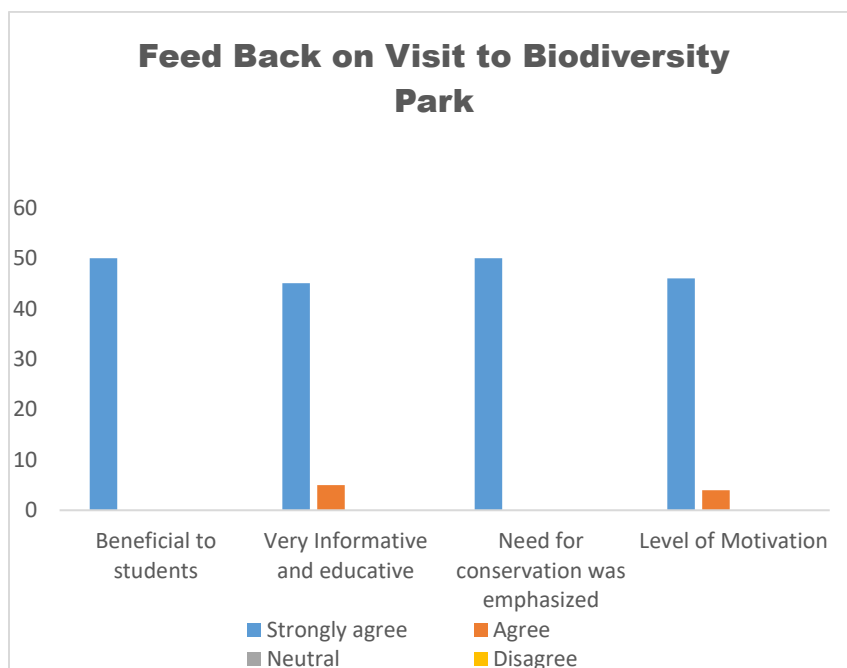

To commemorate the 12 year of its existence in Bangalore, the NAAC office organized a function to inaugurate the biodiversity park in its campus. The park was inaugurated by Honorable minister of state Shri. V. Somanna along the Director and office bearers of the National Assessment and Accreditation Council.

The students of Kristu Jayanti College along with two faculty members attended the inauguration function and also visited the biodiversity park. There were about 50 students along with the faculty coordinators from the Centre of Environment and Sustainability who visited the campus. The Biodiversity Park with its rich flora and fauna are ideal instruments for promoting conservation education that ultimately will have positive impacts on environmental quality and conservation ethics.

Outcome:

The students were fascinated to see the various kinds of fruit trees and herbs that were planted in the park. All plants were labeled for easy identification by the visitors. Many ornamental and plants of medicinal importance were also seen in the park. The students made careful observations of the diverse flora.

CENTRE FOR ENVIRONMENT AND SUSTAINABILITY

EXPERT TALK ON

“ONE LIFE ONE PLANET”

Date : 24/09/2022

Time : 9:15 am to 11:00 am

Classes Attended : 140 Student volunteers of Centre for Environment and Sustainability and students of Department of Life Sciences

Number of beneficiaries : 140 Student volunteers of Centre for Environment and Sustainability and students of Department of Life Sciences

Name and details of the Resource Person : Shri. AG Anil Kumar, Philanthropist and Environmentalist

Faculty in charge: Dr. Priya Josson, Dr. Indira MN, Department of Life Sciences

Venue: M3 Auditorium, Main Block, Kristu Jayanti College

Objectives:

To inspire students to spend a part of the time for the well-being of the community and environment

To motivate students to plant saplings, save trees and save birds from extinction

Brief Write up on the Programme:

The expert talk on One Life One Planet started off with arrival of the keynote speaker Shri Anil Kumar, a renowned philanthropist and environmentalist. Principal Fr. Augustine George briefed the speaker about the environment initiatives in college and appreciated the great work done by Shri. Ag Anil Kumar. The real back stage preparation began way before his arrival under the able guidance of the staff coordinators of Centre for environment and sustainability Dr Priya Josson and Dr Indira MN.

Ms Sandra Devassy, student coordinator of CES, did the anchoring on the dais. Mr Ashwin V, student of 3rd year Bsc BBB provided a radiant overture on the resource person. Dr Calistus Jude, Dean of Faculty of sciences welcomed the guest with a sapling.

Then the chief guest enlightened the audience with his escapade into the world of philanthropy. He shared multitude of his experiences on how he helped his village, Ananthapuram, overcome the horrors of the COVID pandemic. He also voiced his appreciation to Mr Vijay, Coordinator CES for his immense contributions to animal welfare back in his home town. He motivated students to do their little towards the society and environment. He inspired the audience with his Heal Ananthapur, Green Ananthapur, Green army and Home for Birds campaign. The audience gave their undivided attention to the guest of honour which was clearly evident in the interactive session that followed. A video was played on the environmental activities of Shri. A G Anil Kumar.

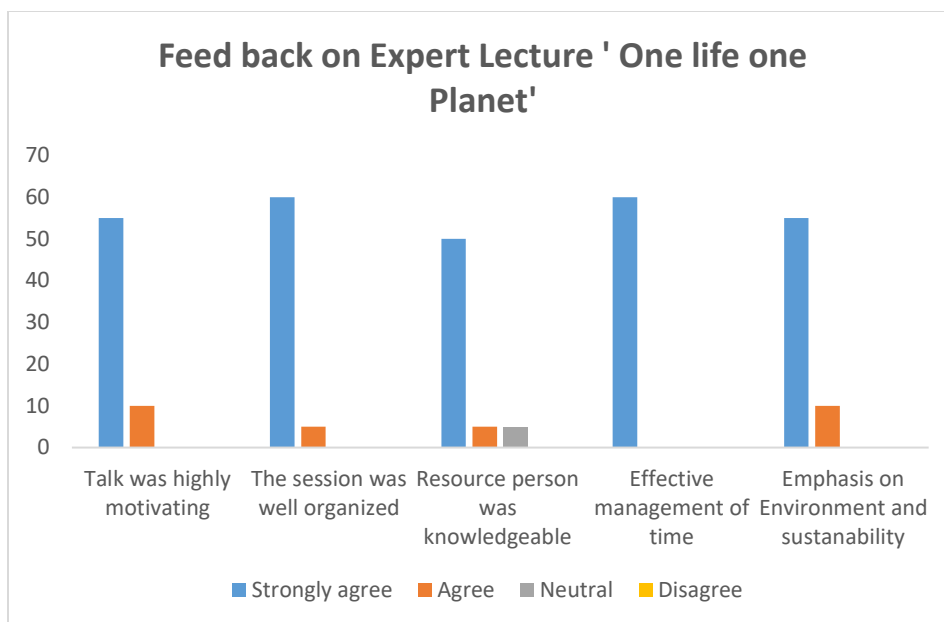

Mr Vijay Narasimha P, proposed a very evocative vote of thanks as a token of gratitude to the guest of honour. In honour of the chief guest, Dr Calistus Jude, bestowed a memento to Shri Anil Kumar.

The event concluded with the college anthem. Shri. Anil Kumar went around the campus and was impressed by the green practices of the college including medicinal garden, rain water harvest and landscaping with trees. He identified the spots where home for birds could be implemented in Kristu Jayanti College campus.

Outcome:

The session motivated students to be part of the home for birds campaign to bring the urban sparrows back to city and to plant more saplings and to save trees. He gave away the message that one person taking even one step can save this planet reverberating with the title of the talk, One Life One Planet.

Translation

discoveratp An unforgettable day in my life yesterday was when I shared my journey with nature
lovers at kristu Jayanti College, Bangalore.

A memorable day when i share my journey with a very bright
generation of youngsters of @kristujayanticollegeautonomous

A bunch of environment lovers

There is a lot to learn from the youth of this generation. I am grateful to the college
management, dept of life sciences team, and everyone involved for inviting me.

Special thanks to @animal_rescue_team_anantapur

Vijaya Narasimha for making this possible

This college is a great example of how a college should be in harmony with nature. A rain water
harvesting tank of several hundred thousand liters per month is impractical to use every drop of
rainwater. Also, the way they are adopting towards nature here and the steps they are taking

towards it is delightful.

This is our home for birds next destination @kristujayanticollegeautonomous

2022-23

October, 2022

Poster Awareness on Environment Commemorative Days

Date and Commemorative Day: 05/10//2022 - Energy Efficiency Day

14/10/2022 - International E-Waste Day

24/10/2022 - International Day of Climate Action

18/09/2022 - World Clean-up Day

27/10/2022- Sustainability Day

Objectives:

3. Spread awareness on Environment related issues.
4. Take action to protect environment emphasizing on issues related to environment on respective commemorative days.

Brief Write up on the Programme:

Awareness was created among the students, faculty and general public by creating poster on environment commemorative days and sharing in social media. The posters of commemorative days which fell in September are attached below.

Sl. No.	Commemorative Day	Date
1	Energy Efficiency Day	October 5, 2022
2	International E-Waste Day	October 14, 2022
3	International Day of Climate Action	October 24, 2022
4	Sustainability Day	October 27, 2022

Outcome: It spread awareness on

- Usage of biofuels
- Actions to be taken to keep away air pollution and thus maintain clean air and blue skies
- Take necessary steps to avoid hydrofluorocarbons and preserve ozone layer
- Make our efforts to keep our surroundings clean
- To reduce emissions in our own little ways

The poster which spread awareness on Environmental Commemorative Days are attached below

**INTERNATIONAL E-WASTE DAY
E-RASE YOUR E-WASTE (Collection of e-waste for recycling)**

Date: October 14-21, 2022

Place: Kristu Jayanti College, Bangalore

Objective:

- To provide proper handling and management of toxic e-waste and chemical substances.
- To spread awareness about e-waste management
- To protect the environment from e-waste issues.

Report:

October 14 is International E-waste Day. E-waste is any electrical or electronic equipment that has been discarded. This comprises working and damaged items that are thrown in the garbage. E-waste is mainly dangerous due to toxic chemicals that naturally leach from the metals inside when buried waste includes Home Appliances, Communications and Information Technology Devices, Home Entertainment Devices, Electronic Utilities, Office and Medical Equipment. Every year millions of tons of electronic waste are discarded and we need to improve the way it is collected and treated to prevent it from becoming a major environmental issue. The day is used to raise awareness on e-waste recycling. Let's pledge to prioritize e-waste recycling.

The Centre for Environment and Sustainability in collaboration with Department of Computer Science (UG), Kristu Jayanti College (Autonomous) made an attempt to raise awareness on e-

waste management by collecting e-waste for recycling. Students, Faculties and Administrative staff deposited the e-waste in the bins which were placed in various blocks. E-waste comprising of mouse, keyboard, wire, Circuit boards, DVDs, Compact disks, Audio Equipment, amplifiers etc were collected for recycling. The day was used to raise awareness on e-waste recycling and motivated students and faculty to prioritize e-waste recycling.

Competition on Instagram Reels creation in commemoration

of Sustainability Day

27th October 2022

Title: Instagram Reels on the theme “Save Earth, Go Sustainable”

Date: 27/10/2022 – 01/11/ 2022

Classes Attended & No of Beneficiaries: Entire College

Faculty In-charge: Dr.Subha B, Department of Management

Ms. Apoorva Udayashankara, Department of Life Sciences

Objective:

Sustainability Day was organised to spread the message to halt the degradation of ecosystems and restore them to achieve global goals. Only with healthy ecosystems can we enhance people's livelihoods, counteract climate change, and stop the collapse of biodiversity. Short videos that are easy to create and share with many people are a great tool for spreading the message about environmental protection. Spread the message of sustainability that even small actions from our side will add to the mission of saving our Planet Earth.

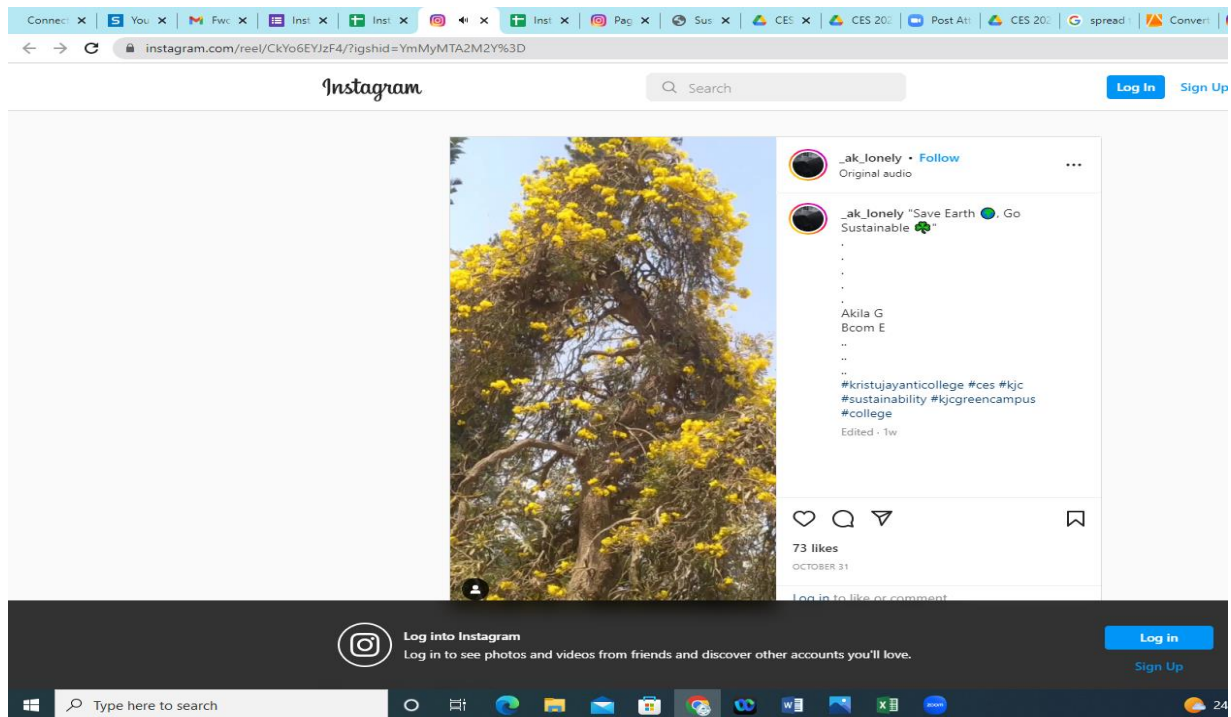

Brief Write-up on the Programme:

Centre for Environment and Sustainability organized a competition on Instagram Reels creation with the theme “Save Earth, Go Sustainable” commemorating Sustainability Day on October 27, 2022. As the world becomes increasingly digital, social media is becoming more and more popular. One can reach a billion individuals with a few clicks. Instagram Reels, a tool that allows users to quickly become popular, are a popular way for users to connect and have fun with their followers.

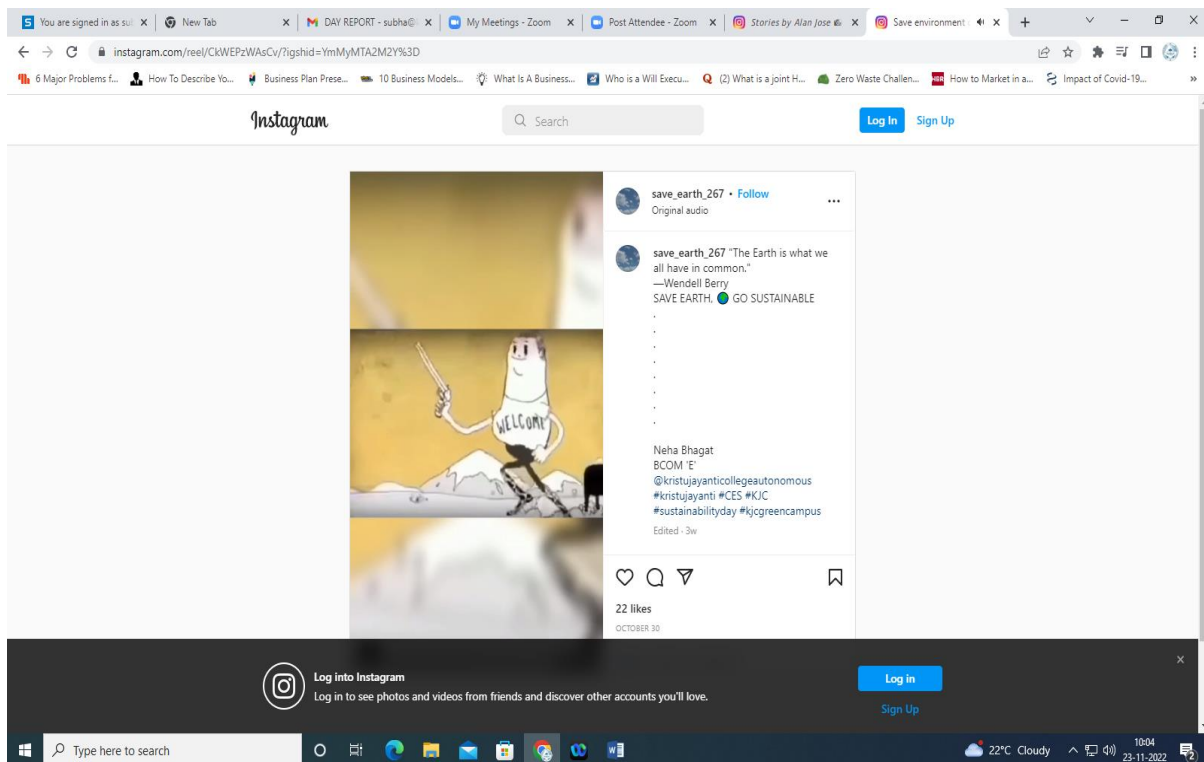

Students took to social media with engaging Instagram reels to spread awareness of climate change and look after our planet.

CENTRE FOR ENVIRONMENT AND SUSTAINABILITY

INITIATION OF TERRACE GARDENING

Date : 14/ 11/ 2022

Time : 1 :40 pm to 03:30 am

Classes Attended : 15 Student volunteers of Centre for Environment and Sustainability and students of Department of Life Sciences

Number of beneficiaries : 15 Student volunteers of Centre for Environment and Sustainability and students of Department of Life Sciences

Faculty in charge: Dr. Sivagama Sundari, Dr. Priya Josson, Department of Life Sciences

Venue: Conference Hall 1, PG Block, Kristu Jayanti College

Objectives:

To gain practical expertise on terrace gardening

To motivate students to grow their own garden and to adopt organic farming, terrace and balcony garden for growing vegetables.

Brief write-up

The much-awaited terrace gardening initiative was started off by the members of the CES on 14 November 2022. The students along with the faculty in charge gathered at the nursery area at 1:30 pm. A brief description of the process was given by Dr. Sivagamasundari with the assistance of Mr. Binu. The students prepared the pot mix and filled the grow bags with dried leaves and manure accordingly. The first layer was with dried leaves. The potting mix was mixed by the students in a separate tray and then transferred to the grow bags. The pot mix was a mixture of soil, cow dung and coco peat which was mixed manually by the students. The growbags were ready within an hour due to the combined effort of each member. The grow bags were kept aside and transferred to balcony/ terrace of the third floor of PG block.

Outcome:

The activity motivated students be one with nature, the art of preparing the right pot mix by incorporating earthworms, vermicompost and cocopeat and to set the grow bag for growing vegetables.

CENTRE FOR ENVIRONMENT AND SUSTAINABILITY

EXPERT TALK ON

“MY GARDENING EXPERIENCES AND THE JOYS OF GROWING YOUR OWN VEGGIES”

Date : 22/ 11/ 2022

Time : 10 :15 am to 11:30 am

Classes Attended : 64 Student volunteers of Centre for Environment and Sustainability and students of Department of Life Sciences

Number of beneficiaries : 64 Student volunteers of Centre for Environment and Sustainability and students of Department of Life Sciences

Name and details of the Resource Person : Ms. Noella Ann, Admission Office Executive,
Kristu Jayanti College,
Mr. Roshin Ray Varghese, Research Assistant,
Kristu Jayanti College

Faculty in charge: Dr. Priya Josson, Dr. Sivagama Sundari, Department of Life Sciences

Venue: Conference Hall 1, PG Block, Kristu Jayanti College

Objectives:

To gain expert advice on terrace gardening

To motivate students to grow their own garden and to adopt organic farming, terrace and balcony garden for growing vegetables.

Brief Write up on the Programme:

The expert talk started off with the arrival of Fr. Dr. Augustine George, Principal, of Kristu Jayanti College, and Fr. Deepu, Director of the Student Welfare Office to the venue. Members of the Centre for Environment and Sustainability and students from the Life Science Department were

present in the venue as the audience for the occasion. The program was anchored by Aswin V from 5th-semester BSc BBB. The welcome address was delivered by Dr. Priya Josson, Director of the Centre of Environment and Sustainability. Principal, Fr. Dr. Augustine George spoke about the importance of involvement of students with the nature and motivated students to nurture nature. In his address Principal shared some of his experiences with gardening and the joy of being with nature. Principal appreciated and presented the CES badge to Rishika who designed the logo for CES.

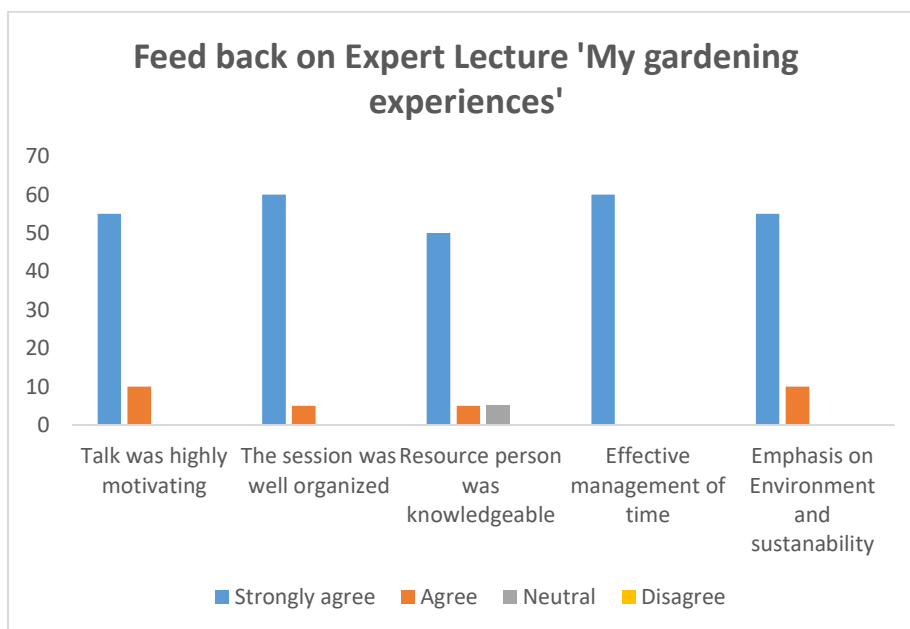

Ms. Noella Ann, Admission Office Executive, took over the dais to share her personal experiences with home gardening and shared photos of different varieties of vegetables grown with organic farming. The session was followed by an interactive Q&A session. Mr. Roshin Ray Varghese, Research Assistant, Department of Life Sciences then took over the session to share the scientific and theoretical aspects of growing one's own roof-top vegetable garden. Mr. Roshin also answered a few questions from the audience before concluding his presentation.

The vote of thanks was proposed by Ms. Sandra Devassy, Student Coordinator of CES. The session concluded with an information discussion between the panel members.

Outcome:

The session motivated students and staff to grow their own vegetables and to be sustainable. It also motivated to adopt organic farming

CENTRE FOR ENVIRONMENT AND SUSTAINABILITY

Report on

“Cocopeat Production”

Date	: 28/11/2022
Time	: 12:00 pm to 12:45 pm
Classes Attended	: BSc BBB, BSc BOBT, BSC BTBE Students
Number of beneficiaries	: 31
Faculty Incharge	: Dr. Indira M.N, Coordinator, CES
Venue	: Conference Hall 1, PG Block, Kristu Jayanti College

Objectives:

- To initiate a new venture on organic production.
- To instill awareness regarding conservation and restoration of soil.
- To produce biological and ecofriendly materials from coconut wastes.

Brief Write up on the Programme:

The Centre for environment and sustainability accomplished an activity on the production of cocopeat, an organic, sustainable and eco-friendly approach to replenish and conserve soil. Cocopeat is an environment friendly medium for root growth, aeration of soil, retention of soil moisture and also as component of organic manure. Cocopeat blocks are useful in soilless and hydroponic farming. The activity was carried out by the Botany students of I and III Sem BSc under the guidance of Dr. Indira M.N., Faculty Coordinator of CES. The entire process of cocopeat production was done in the premises of Kristu Jayanti College by using the waste coconut husks derived from the coconut trees in the campus.

Ms. Sandra Devassy, student coordinator of CES, welcomed the audience after which, a short video on the making of cocopeat was projected. Dr. Indira spoke about the relevance of soil and the initiative undertaken.

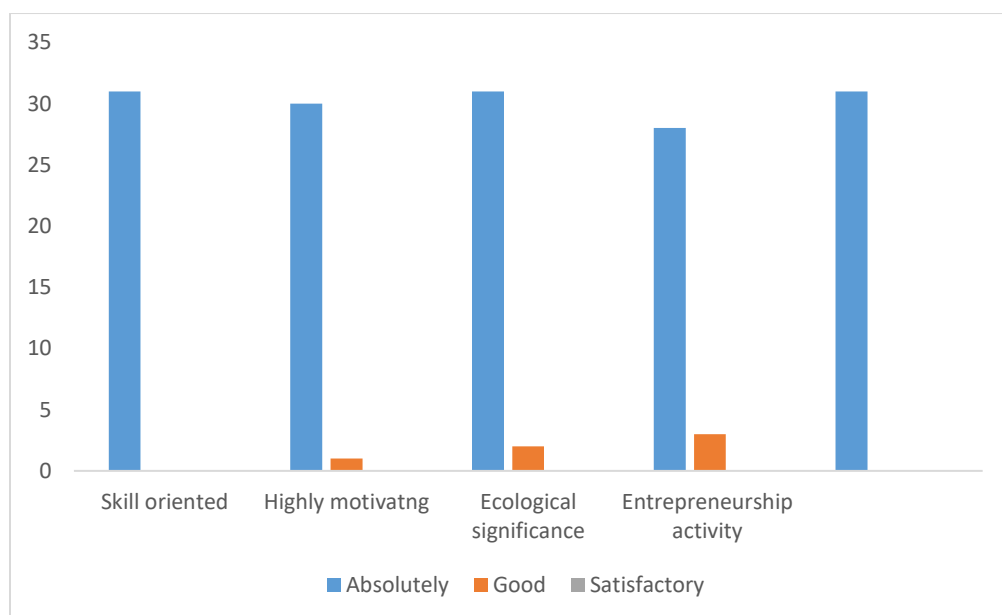

Principal Fr. Dr. Augustine George released the cocopeat blocks made by the students in the college. The students also welcomed him with a seedling germinated in cocopeat. Fr. Principal was delighted to see the outcome of the initiative and appreciated the efforts put in by the students and faculty of Centre for Environment and Sustainability and further suggested the team to take this initiative forward on a bigger scale. He also suggested that a project can be done in this regard. Ms. Sangli Keerthi, student of III Sem BOBT, shared her experience about her involvement in the entire process of this activity. This was followed vote of thanks delivered by Mr. Vijay, student Coordinator CES.

The event concluded with a photo session of the entire team of CES in Chavara square.

Outcome:

The students learnt the technique of cocopeat production. They understood the importance of cocopeat and its commercial utilization. This initiative led to emergence of newer ideas in further extending this activity to the society.

2022-23

December, 2022

Poster Awareness on Environment Commemorative Days

Date and Commemorative Day: 02/12/2022 – National Pollution Control Day

05/12/2022 – World Soil Day

Objectives:

1. Spread awareness on Pollution and the ways of reducing pollution
2. Take action to protect soil from which all food arises

Brief Write up on the Programme:

Awareness was created among the students, faculty and general public by creating poster on environment commemorative days and sharing in social media. The posters of commemorative days which fell in September are attached below.

Sl. No.	Commemorative Day	Date
1	National Pollution Control Day	December 2
2	World Soil Day	December 5

Outcome: It spread awareness on

- Control of pollution: air pollution, water pollution, noise pollution,..
- Actions to be taken to keep away air pollution and thus maintain clean air
- Make our efforts to keep our surroundings clean
- To reduce emissions in our own little ways
- Preserve soil
- Produce cocopeat an alternative to soil for pklant growth and development
- Take up terrace gardening and organic gardening
