### **Objective:**

The objective of the parade is to help shaping the character of cadets by instilling the values of patriotism, service, discipline and hard work.

### **Brief Write Up:**

The section commanders were instructed to take charge under the surveillance of the ANO and SUO. The cadets were taken for a warm up session which included basic exercises for body flexibility. The training session further proceeded with respective seniors heading their troops. Cadets were taught khuki line chal, nikat line chal and other basics of drill. Meanwhile the band cadets started their practice separately under the guidance of esteemed band master who has been kind enough to accept our request to train out cadets in playing instruments. Cadets were taught the importance of aligning themselves in a contingent. They also practiced style march and flat foot march. The importance of working together as a team to get the perfect drill was realized by the cadets. The band cadets were trained on how to blow a trumpet and how to clean it and other basics. Following two rigorous drill sessions, the cadets assemble for their theory class where they

were taught map reading and were also allotted time for their upcoming SEC examination. This marked the end of a fruitful training session. The parade was concluded with the NCC song and National Anthem.

### **Feedback:**

The NCC has become instrumental in moulding the character and imparting in our cadet's dynamic outlook during their college education periods.

### **Objective:**

The objective of the plantation drive is to increase the Green cover of our country, fight the menace of global warming and to create better environment for the next generation.

### **Brief Write Up:**

The cadets participated enthusiastically in the plantation drive. The spirit of cadets was undeterred as they planted saplings in college ground and 2<sup>nd</sup> campus too. Fr. Principal Augustin George started the event by planting the first sapling in the ground of the college with his hand. Plants were provided by the 3 Kar BN.

After which Fr. Principal interacted with cadets and shared green information about saplings. He also talked about how planting trees helps to regulate the temperature and absorb all the carbon dioxide from the air. He suggested that every cadet should at least plant one tree per year as it will help the world to fight against global warming.

**Feedback:**

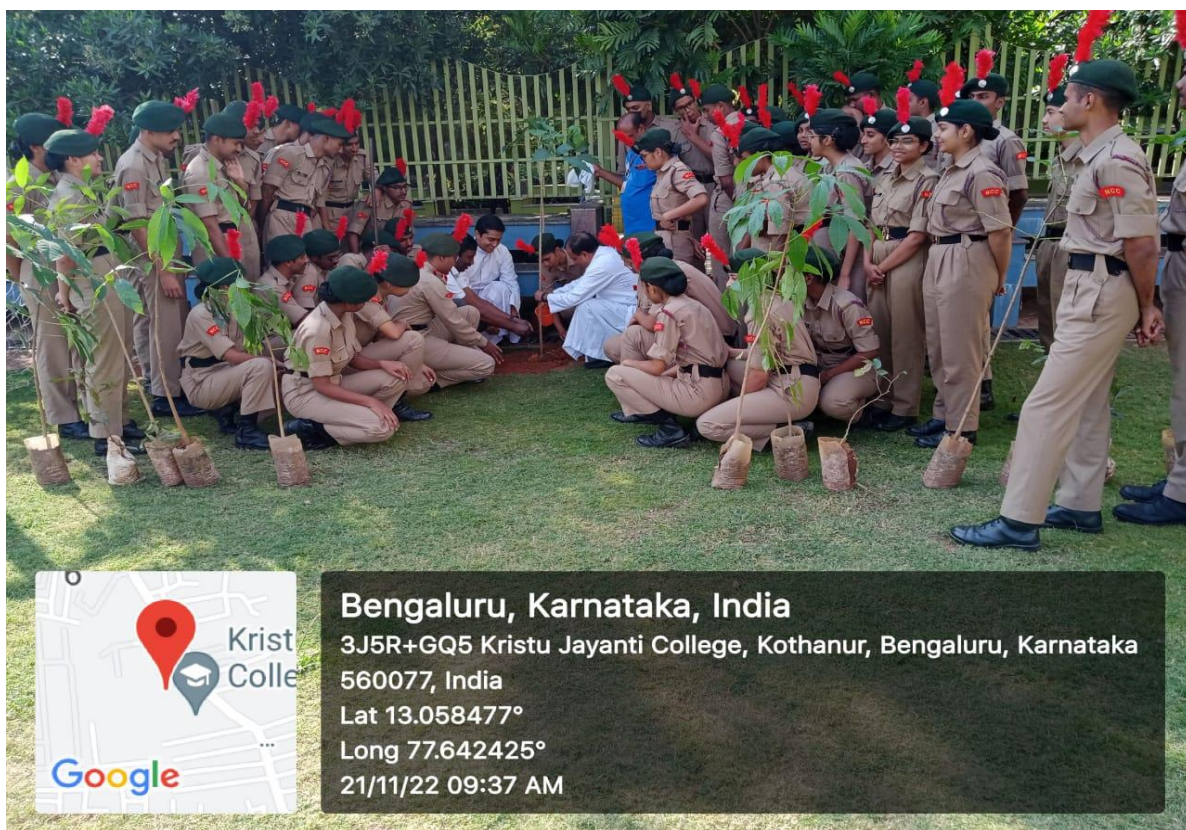

The event was joyful as cadets learnt how to take care of the tree saplings. Understood the importance of tree plantation for coming future generation.
