The plethora of avenues that the department provides gives a platform to the students to enhance their aptitude and attitude. The department emphasizes the Moral, Social and Patriotic growth of students. The influence & the impact that the department creates is felt in the greater altitudes that the alumni have achieved both nationally and internationally.

ABOUT THE FDP

Faculty Development Programs (FDPs) on "Blended Learning: Tools for Teaching & Research" can be a great way for educators to learn about and implement new teaching strategies that incorporate both online and in-person elements. Blended learning is a method that combines traditional classroom teaching with online learning tools, allowing for more flexibility and customization in instruction. In an FDP on blended learning, participants can expect to learn about various online tools and platforms that can be used to create engaging and interactive learning experiences. They may also learn about best practices for designing blended learning curricula, including how to effectively integrate online and offline components.

Overall, an FDP on blended learning can be a valuable opportunity for educators to gain new skills and knowledge that can enhance their teaching and research practices. By incorporating online learning tools and strategies into their curricula, educators can provide more engaging and personalized learning experiences for their students.
