REMEDIAL CLASSES

The remedial classes are particularly intended to improve the results of students based on the need for investigation approved out by observing the learner's deviated performance, to put it on a correct path. Remedial teaching in the present system of education is one of the effective way to improve and increase students both achievement in studying and performance in the examination. This purposefully aims at filling in the gaps in the previous learning by giving correction of faulty study habits, and removing many distortions that happens in pupils learning activity for example having poor memory, short attention span, easily distracted by other things, having relatively poor comprehensive power, lack of learning motivation, lack of self-confidence having relatively slow expectation, weak in problem solving power, having difficulty in grasping information effectively, having difficulty in understanding new or abstract concept, and need more time to complete assignments or tasks.

After understanding those previous issues we intended to discuss first some principles of helping students with learning difficulties, second the procedure of remedial teaching covers identification of students learning styles, diagnosis students deficiencies, how to cure or remedy them and help them clear their backlogs and achieve the right

A count of 14 Faculties where deployed to take 5 subjects from the I Semester and III Semester for 173 students.

OBJECTIVES OF THE REMEDIAL CLASSES

- To motivate and help the academically weaker students to realize their weakness and help them to improve on their fronts.
- Improving academic skills of the students in various subjects.
- Raising their level of comprehension of basic subjects to provide a stronger for further academic work.
- Strengthens their knowledge skills and attitude in such subjects.
- Help the students to clear their Backlogs of their graduation program.
