## **Garbage Segregation Unit Visit**

**Date: 15<sup>th</sup> September 2017**

**No. of Beneficiaries :**

<b>No. of SD's</b>	<b>18</b>
<b>No. of SW's</b>	<b>10</b>
<b>Total</b>	<b>28</b>

### **Objective :**

To create awareness about garbage segregation and recycling and educating environmental issues.

### **Brief Write-up:**

Swaach Pakwad is an event to educate and make awareness about environmental issues. On 15th September 2017, Kristu Jayanti College gave an opportunity for NCC cadets to visit a garbage dumping yard and gain knowledge about garbage segregation and recycling. Waste is not a behaviour that most city dwellers are familiar with. It may be possible to bring a more substantive shift in thinking and behaviour towards waste by integrating environment education centre on solid waste management beginning at the elementary level.

The garbage segregation process educates that organic and dry waste should be segregated accordingly while depositing waste. A visit to GRACE waste collection centre where the cadets learnt on segregation and recycling of waste, where a huge amount of waste is collected every day, which has to be disposed of carefully and recycled for further reuse.

Waste is segregated into organic, dry and sanitary waste, to make it convenient for dumping and recycling. A daily report is made of whatever waste is used for recycled or whatever waste is dump into the sand and how much waste is sold.

**Feedback:**

A visit to GRACE was very much useful and all the cadets learnt the segregation process which will be useful in their life process.

## REPORT OF VISIT TO SNEHADEEP

### SOCIAL OUTREACH PROGRAM ORGANIZED BY ENVIRONMENT CLUB AS PART OF Swachhata Pakhwada

On the afternoon of 15th September 2017, the third-semester students of the Life Sciences department, as an initiative from the Environment club of Kristu Jayanti College, visited Snehadeep Care Centre for the visually impaired for Social Outreach Program as a part of Swachhata Pakhwada. The care centre is situated in Cox town, Bangalore and had around 30 students present there. At the outset, the students were greeted by Mr. Yogesh, the coordinator of the care shelter, who gave them insights about the place and its establishment and how the students residing there were touching the skies of success in their unique way. Students were then taken to the computer lab where they were explained how technology was made easy for the visually impaired students through various innovative methods. Students were then given samples of braille script. Some of the students also got their names written in braille script.

A few students also interacted with the residents and realised that they lived a life much more adventurous than their own. Many residents had participated and even won national level competitions in areas of sports and public speaking. There was a boy who had competed against the Asian Chess champion. The day ended with an interactive session of the game of 'anthakshari' and the students went back realizing that there is nothing that should stop them from achieving their goals.
