

Discussion on GST

Kristu Jayanti College had organized a programme to discuss the new comprehensive indirect tax, Goods and Services Tax (GST). The College has often kept the faculty and students abreast with the challenges and opportunities in relation to trade, industry and commerce. The talk not only shed light on the implications of GST at the national level, it spelt out opportunities that would arise for its students, in the areas of company secretaryship, expert opinion and planning with regard to income tax etc.
